Our Goals

- To study and emulate the enlightening manners and beliefs of the Islamic faith.
- To study and learn the Arabic language and the Holy Quran.
- To achieve advanced knowledge of Mathematics, Science, Social studies and Language arts by applying a curriculum based on national and state standards for each grade.
- To learn, understand and respect other cultures and beliefs including Judeo-Christian values.
- To reach out to the local community by competing with other schools in activities and performing leadership activities and community service.

Salam Academy
“Where Education Has No Limits”

“Take benefit of five before five:
your youth before your old age,
your health before your sickness,
your wealth before your poverty,
your free-time before your preoccupation,
and your life before your death.”
(Narrated by Hakim)

Salam Academy was established in 2001. We are an [NCA accredited school](#). Our small class size gives our certified teachers time to focus on each student. Our school has a dress code and maintains a healthy Islamic environment. It is a Community owned not-for-profit organization with a 501(c) status and mainly depends on community donations.

Vision:

Salam Academy's Vision is to create outstanding American citizens who are trained to be leaders in their family, community, and the American society as a whole.

Mission:

Salam Academy is an institution of learning aimed at maintaining the ethnic roots and moral values of Muslim students. We develop leaders in the fields of science, mathematics, and humanities while simultaneously training outstanding American citizens.

The only accredited school that teaches Quran and Islamic Studies.

Our School:

We believe our children are the future. Our school is dedicated to providing a quality education in both fields: the religious and the secular. Our unique education system has established our place as one of the State of New Mexico's outstanding schools.

NM MESA Coordinator's Comments:

Salam Academy has demonstrated their commitment to education and community by initiating a MESA program at their school in 2007, and continuing to support the program since then. Salam Academy students attend STEM-related field trips, visit with guest speakers from many professions, compete in regional and state level competitions, and perform year-long service learning activities.

The reason for having my kids at SA is not only for their strong Math, Science and Reading teaching (which is great to have), I want them to learn about Islam and make them feel more identified with the Islamic value system. I want them to be proud of who they are no matter where they go.
