**NOTE:**

**Salam Academy is open on April 7, 2023** [APS observes Vernal holiday] - FYI ... The date of Easter is based on the ecclesiastical Vernal Equinox, always 21 March, which may or may not correspond to the actual astronomical Vernal Equinox any particular year. Easter is the first Sunday following the first full moon following 21 March. If 21 March is a full-moon day and a Sunday, then Easter is on the next Sunday. Also note that those in Eastern Orthodox traditions will celebrate Easter Sunday based on the Julian instead of the Gregorian Calendar, which may or may not affect the date. Easter Sunday can fall anywhere from 22 March to 25 April.
